Boogie

Precautions

• This disc contains software for the PlayStation®2 computer entertainment system. Never use this disc on any other system, as it could damage it. • This disc conforms to PlayStation®2 specifications for the PAL market only. It cannot be used on other specification versions of PlayStation®2. • Read the PlayStation®2 Instruction Manual carefully to ensure correct usage. • When inserting this disc in the PlayStation®2 always place it with the required playback side facing down. • When handling the disc, do not touch the surface. Hold it by the edge. • Keep the disc clean and free of scratches. Should the surface become dirty, wipe it gently with a soft dry cloth. • Do not leave the disc near heat sources or in direct sunlight or excessive moisture. • Do not use an irregularly shaped disc, a cracked or warped disc, or one that has been repaired with adhesives, as it could lead to malfunction.

Health Warning

For your health, be sure to take a break of about 15 minutes during every hour of play. Avoid playing when tired or suffering from lack of sleep. Always play in a well-lit room, sitting as far from the screen as the cord will allow. Some people experience epileptic seizures when viewing flashing lights or patterns in our daily environment. These people may experience seizures while watching TV pictures or playing video games. Even players who have never had any seizures may nonetheless have an undetected epileptic condition. Consult your doctor before playing video games if you have an epileptic condition or immediately should you experience any of the following symptoms during play: dizziness, altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion, and / or convulsions.

Starting The Game

1. Set up your PlayStation®2 computer entertainment system according to the instructions in its instruction manual. Attach game controllers and other accessories, as appropriate.
2. Make sure the MAIN POWER switch (located at the back of the console) is turned ON.
3. Press the ⏻/RESET button. When the ⏻ indicator is green, press the ⏏ button. The disc tray opens.
4. Place the *Boogie*™ disc on the disc tray with the label side facing up. Press the ⏏ button again and the disc tray closes.
5. Follow on-screen instructions and refer to this manual for information on using the software.

It is advised that you do not insert or remove accessories or memory cards (8MB) (for PlayStation®2) once the power is turned on. Make sure there is enough free space on your memory card (8MB) (for PlayStation®2) before commencing play.

NOTE: Any saved data present on a memory card (8MB) (for PlayStation®2) in MEMORY CARD slot 1 will be autoloaded on boot up.

NOTE: *Boogie* requires and only supports a memory card (8MB) (for PlayStation®2) inserted in MEMORY CARD slot 1.

NOTE: Select your preferred language from the console's internal System Configuration menu. Choose from English, French, Spanish, Italian, German, Dutch, Portuguese.

Getting Started

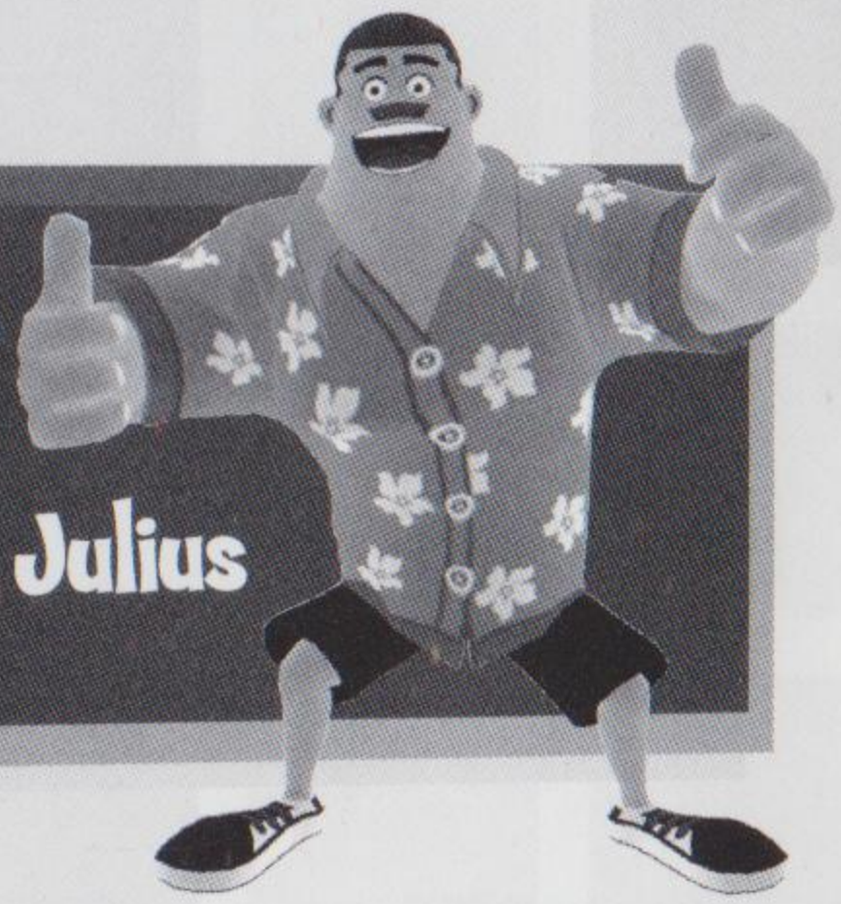
Create a Character

The first time you play *Boogie*, you are prompted to create a character. Select one of the five character varieties (see *Characters* for the five varieties), then customise him or her with hair, clothing, shoes and accessory options. When you have finished, choose a new name for your character, highlight OK, then press ⊗ to select OK and advance to the main menu.

- Your game progress and preferences are stored to your character profile.

NOTE: Videos are saved separately and must be manually saved each time you record or edit one.

Characters



Julius

Julius is – quite simply put – a mean, green, entertaining machine. A renowned performer in many different galaxies, Julius's popularity is as huge as his moves are legendary. But secretly Julius is beginning to be fed up with it all. Now he's decided to relax and take a bit of a holiday on a little planet called Earth, where his celebrity has not yet caught up with him. But Julius just can't ever seem to stay out of the spotlight for very long...

Bubba

Don't let Bubba's looks deceive you. This simple gas station attendant becomes a dancing fiend when he takes to the dance floor. Sweatin' to the oldies is the name of Bubba's game and he'll dance to anything with a disco beat. A chance meeting with Lea and Jet – along with a little help from Kato, Bubba's martial arts master – sends Bubba inadvertently down the road to stardom.

Lea

Lea, an aspiring pop star, has oodles of talent – and the ambition to match – so naturally there's only one place she's going: straight to the top. With her funky moves and show-stopping appearance – and a little help from some friends she meets along the way – Lea knows it is inevitable that she'll be the biggest sensation the party freaks at the Megalactic Grooveplex have ever seen.

Jet

It's no coincidence that Jet is the biggest pop star. A singing and dancing virtuoso, Jet's got all the hottest moves – and the charisma to match. Although Jet knows his massive popularity will ensure that he'll always be the Megalactic Grooveplex's biggest star, he's about to get a little competition from a hot new pop idol named Lea. Is Jet about to be served by an up-and-comer?

Kato

In the beginner's mind there are many fresh moves; in the expert's mind there are few. No one knows this better than Kato, the martial arts master presently training the beginner-to-end-all-beginners: Bubba. A wise dojo master, Kato is shocked to discover that, by leading Bubba to the Lost Temple of Funk, Kato may finally find the long-lost grandfather he's been yearning for.

Tip To find out more about each character, select STORY in the main menu.

Main Menu

STORY	Complete the stories of Lea, Jet, Julius, Bubba and Kato, unlocking special mystery items along the way.
KARAOKE	Sing your heart out in this mode that requires no dancing.
DANCE	Select a song and a stage and then showcase your best dance moves.
PARTY	Challenge a friend to a dance-off to see whose moves are the most stylin'.
VIDEO MAKER	Record your best singing and/or dancing performances, then create your very own music video.
SHOP	Exchange tokens you've earned for new outfits, songs and stages.
CHANGE CHARACTER	Customise your existing character, change to a different character or create a new one.
PRACTICE	Learn how to play *Boogie* or just practice your steps.
OPTIONS	Adjust music and sound effect volume levels, turn vibration ON or OFF, view the credits or view the game controls.

Playing the Game

Boogie to a new beat when you use the microphone attachment and your controller to add your very best dance moves and karaoke skills to your own music video.

Game Screen

Singing

Hit the right note for the specified amount of time (indicated by the bar) to score in Karaoke mode.

Dancing

As you dance, you are awarded points for staying on beat and performing impressive moves, depending on your difficulty level. Compete to get the highest score possible. At the end of each game you find out whether you obtained enough points to get a bronze, silver or gold medal for your performance.

Tip Press ⊗/□/○ to switch between dance styles – each character has three to choose from.

Boogie Meter

Dance on beat to fill your Boogie Meter with Boogie Power. Changing your style – while still staying on beat – fills the meter even faster. When your meter is completely full, press L1/R1 to perform cool dance moves only available to you when you spend your Boogie Power.

Combos

Press and hold L1 and follow the on-screen arrows with the left analog stick and the right analog stick at the same time to perform a combo move. If you can do all steps in sequence and on beat, you'll pull off an awesome combo!

Solo Mode

This mini-game is only available in Dance mode, and the Story mode stages where you only dance. It offers a chance to earn a lot of points and Boogie Power.

- A countdown appears, letting you know that you are about to enter Solo mode. Your character begins lip-syncing and a set of bubbles – much like the ones that appear when you sing in Karaoke mode – appear on-screen. Press **L2** at the appropriate times as the bubbles scroll (much like you would sing when the bubbles indicate in Karaoke mode). If you perform correctly, you earn both points and Boogie Power.

Strike A Pose

Press **R1** to activate Strike A Pose. Strike A Pose depletes your Boogie Meter, so make sure you have some Boogie Power saved up first.

- In Strike A Pose, press the right analog stick and the left analog stick to move the X onto the targets that appear on-screen. As you select them, your character strikes all sorts of brand-new funky poses.
- Press **R2** to open and close your character's eyes and **L2** to move your character's mouth.

Pick-Ups

Pick-ups, carried by Party Freaks, drop randomly during gameplay. When you see one, walk over and touch it to collect the goods.

POINT MULTIPLIER	Grants you double the number of points earned for 10 seconds.
BOOGIE BOOST	Completely fills your Boogie Power.
TOKENS	Gives you 5, 10 or 25 tokens with which you can purchase songs, stages or clothes from the Shop.
REVERSOMATIC (Party Mode Only)	Rotates your opponent's controls for a short time.
FREEZE BURN (Party Mode Only)	Immobilises your opponent for a short time.

Tokens

In addition to the tokens you can pick up during the game, you are also awarded tokens at the end of each performance. These tokens are redeemable for songs, stages and clothing in the Shop.

The Shop

As you perform, you can earn tokens. You can spend these tokens in the Shop to acquire new clothing items, songs and stages.

- To enter the Shop, select SHOP in the main menu.
- After you've purchased new clothing items, select CHANGE CHARACTER in the main menu, then CUSTOMIZE to use your new goodies.

Game Modes

There are a variety of ways to play *Boogie*, whether your passion is for singing, dancing, making videos or all of the above.

Story Mode

Select a character and follow him or her on a series of challenges that unravel that particular character's unique storyline.

- To begin a game in Story mode, select STORY in the main menu.
- In Story mode, you can unlock special songs, stages and clothing items which cannot be unlocked by merely scoring tokens.

Dance Mode

Show off your most stylin' moves in Dance mode. In this mode, you are not judged on your singing.

- To begin a game in Dance mode, select DANCE in the main menu. Select a stage, song and difficulty setting (EASY, MEDIUM or HARD), then select OK to begin.

Karaoke Mode

Belt out your favourite tune in Karaoke mode, where you are judged on your singing ability only.

- Select KARAOKE in the main menu to access Karaoke mode. At the Karaoke Options screen, adjust mic volume and echo effects, enable or disable Vocal Assist and set the right balance between your voice and the singer's, then select OK. Then, choose a stage and a song and select a difficulty setting (EASY, MEDIUM or HARD) to begin gameplay.

  NOTE: Use Vocal Assist when you want to blend your voice with the voice of the actual singer.

Party Mode

Challenge your friends to see who the best performer is by dancing on the same stage at the same time.

- To start a game in Party mode, select PARTY in the main menu. Each player selects his or her character and then chooses to compete in between 3, 5 or 7 songs in a row. Select your difficulty setting, then select OK. Player 1 then chooses a stage and a song and selects OK to begin.

  NOTE: After the first song, players take it in turns to select the song.

Video Maker

Sing and dance, then create your very own music video to showcase your skills.

NOTE: Performances in this mode are not rated by score.

To start the Video Maker:

1. Select VIDEO MAKER in the main menu, choose NEW VIDEO, then select either DANCE, DANCE AND SING or DANCE THEN SING.
2. Choose a stage and a song, then select OK to proceed to the stage. When you have finished, the Video Maker screen appears.

To edit a video in Video Maker:

1. Select your desired camera angle (click the boxes marked 1-4 or press L1/R1 to change angles).
2. Add your desired special effects by clicking the appropriate box. (**Note**: You can only select one effect at a time.)
3. If you wish to add text, click the Text box, use the on-screen keyboard, then select OK. (**Note**: You can add text on top of a special effect.)
4. When you are ready, click PLAY WITH EFFECTS. The video begins rolling.
5. To cut, select MAKE A CUT or press L1/R1 to change the camera on the fly. If you wish, play around with camera angles, effects and texts to vary things before the next cut.
6. When the song runs out, the video is complete. Choose WATCH to view your video or RESTART to begin again.
7. When you have finished watching your video, select either RESTART EDIT (start again with the same footage), SAVE & QUIT (save the video you just made and return to the Video Maker menu) or QUIT WITHOUT SAVING.

NOTE: Boogie Power is unlimited when you are creating a video.

Saving and Loading

Your character information is automatically saved to your character profile.

NOTE: To save your game, you must have a memory card (8MB) (for PlayStation®2). *Boogie* supports saving to MEMORY CARD slot 1 only.

- To switch characters, select CHANGE CHARACTER in the main menu, then select the character you wish to change to.
- To create a new character, select CHANGE CHARACTER in the main menu, then select NEW CHARACTER.

If you wish to save your videos, make sure you have selected to save them when you have finished recording or editing. Videos will not be automatically saved to the character profile without your confirmation.

Hints and Tips

- Strike A Pose is best used on slower songs, since the number of points you gain depends on your skill rather than the song's beat.
- Make sure you use as much Boogie Power as possible before grabbing the Boogie Boost, but don't wait too long or you could miss your chance!
- The best moment to grab a Point Multiplier is when your Boogie Power is full. That way, you can perform Strike A Pose or Combo chains and earn double the points.
- Pick up tokens as soon as they appear if you want a Point Multiplier or Boogie Boost to appear faster.
- Repeating normal dance moves lowers your score. To add variety (and keep racking up the points), chain together combos or change your dancing style (press ⊗/□/○).
- Getting a good score during Solo mode rewards you with lots of Boogie Power; so spend your Boogie Power if you know a Solo is coming.
